Michael Dorcy, Land Use Planner  
Seattle Department of Planning and Development  
PO Box 34019  
Seattle, WA 98124-4019

Dear Mr. Dorcy:

Seattle Parks and Recreation Department would like to confirm for you that the scope for project 2400368, as submitted to DPD on March 1, 2004 has been revised. This project was modified per City Council legislation and passed by Ordinance 121502 on June 14, 2004.

Eleven synthetic turf and lit fields were originally proposed in the project. The City Council approved nine fields with seven of them to be lit.

In reference to the permit intake drawings, fields 1 and 11 are removed and fields 3 and 7 will not be lit. This results in 6 fewer 65-foot poles, 14 fewer 75-foot poles, resulting in 180 fewer luminaries.

Sincerely,

Kevin Bergsrud, Planning and Development Specialist  
Seattle Parks and Recreation
